FINE OUTDOOR FURNISHINGS

2021

As I write this, we as a home related industry are working to navigate COVID and its lasting effects. Increased demand has lead to its own challenges. Suppliers are struggling with raw materials and logistics may end up proving to be just as great of a test. 2021 is shaping up to be just as formidable of a year as 2020.

As the CEO here at Sunset I see a ton of hard work ahead of us in order for us to continue to deliver on our desire to ensure our customer's experience aligns with our own elevated expectations of how we perform. While the past year certainly made its presence known with its unique trials, it steeled us in our commitment to do better. It challenged us to hone our processes and systems to ensure that we continue to perform.

In my eyes, the Sunset West team responded in the most amazing way to the complications of 2020 and I couldn't be more proud of the dedication of our team members. The office staff worked remotely during the busiest months of our year. Long hours and Saturdays were a given, yet they were able to focus on their tasks at hand and get the job done. Our production team never bucked at the mask mandate and the interruptions of multiple cleanings each day. Instead the team took the COVID challenge in stride, worked the hours required to accomplish their goals and performed markedly well. Our team closed out the year having produced and shipped 32% more goods than in 2019.

As I chart the course for 2021 knowing full well that there are rough seas and unexpected squalls ahead, I am secure in the belief that our dedicated team Sunset West is up to the challenge.

Thank you,

Wes Stewart, CEO

# COMFORT

## INDOOR COMFORT FOR EXTRAORDINARY OUTDOOR LIVING.

Our Sunbrella fabrics are cut, sewn, and stitched by hand in the USA at our manufacturing facility located in Vista, CA. Our generously proportioned frames, combined with body contoured cushioning, provide luxurious relaxation for all Sunset West collections.

All Sunset West products are designed and manufactured with absolute comfort in mind. Seat height, frame depth, cushion thickness, and more are all uniquely specified in our collections to ensure superior comfort.

# STYLE

SUNSET WEST DESIGNS  
DISTINCTIVE PRODUCT FOR A  
HARMONIOUS TRANSITION  
FROM INDOOR SPACES,  
BRINGING LIFE OUTDOORS.

Each Sunset West piece is designed to inspire our customers with trend-forward designs, original ideas, and compelling material combinations. Striking silhouettes and finishes are meticulously selected and crafted in premium materials, for enduring designs to last.

# QUALITY

SUNSET WEST PRODUCTS ARE HAND-CRAFTED FROM MATERIALS THAT HAVE BEEN METICULOUSLY SOURCED AND SELECTED FROM AROUND THE WORLD.

Made by hand, each piece is constructed with impeccable attention to detail. Our master weavers and skilled sewers finish each piece using only premium materials, ensuring that all of our products can be enjoyed for years to come.

## PREMIUM MATERIALS

Our raw materials are meticulously selected without any fillers and manufactured without any shortcuts.

## HANDCRAFTED

Each piece of rope and wicker furniture is hand-woven, while our aluminum frames are polished by hand, and brushed finishes hand-applied.

## DURABLE

Superior frames and fabrics constructed to withstand the elements, with a warranty that stands behind our quality.

# COASTAL TEAK

## COASTAL TEAK

Sunset West's Coastal Teak collection is a beautifully contemporary take on a classic. Our unique multi-step finish gives the natural wood a warm grey color, complementing our other collections for the perfectly curated coastal design. Their natural grooves and subtle rustic features lend a unique look and character to each table – no two pieces are exactly alike.

PIETRA  
STONE

# PIETRA

Informed by mid-century design, Pietra incorporates the best of classic proportions with modern materials. Inspired by the subtle tones of natural stone, Pietra is rendered in a matte graphite aluminum with heathered Shale all-weather rope. Pietra features a rounded tube frame and mid-rise back, that is perfectly scaled for smaller spaces and casts a compelling profile.

# MARBELLA

STONE

## MARBELLA

Inspired by the desire to explore pattern and new weaving techniques, the Marbella collection from Sunset West reimagines form and material to create an incredibly unique statement.

Informed by mid-century style, Marbella features a curved back with sloped arms and deep seat for ultimate comfort. Its tone on tone weave is highly complex yet elegant, in an all-weather stone rope that picks up both cool and warmer earth hues for a wonderfully versatile conversation starter, both indoors and out.

CLUB CHAIR

# MILANO

An ode to Milan, an international symbol of high-fashion, the Milano from Sunset West steps outside of traditional outdoor furniture design boundaries to deliver a winning combination of both whimsy and refinement. Full of juxtapositions, the Milano's generous scale is visually lightened with its striated rope design, and distinctive angles are punctuated with surprising organic curves.

# LAGUNA

DRIFTWOOD

## LAGUNA

A wonderfully surprising re-imagination of materials, the Laguna collection from Sunset West embodies effortlessly stylish living. Crafted in lasting aluminum, with a hand-brushed finish to mimic real driftwood, Laguna captures a timeless look with modern sensibility – offering the look and feel of natural wood, with minimal maintenance. Laguna boasts a generous range of deep-seating and dining pieces in its signature teak-inspired finish, providing endless options to set the stage for outdoor entertaining and relaxation.

# MIAMI

The Miami Collection from Sunset West steps outside of traditional outdoor furniture design boundaries to deliver a winning combination of both whimsy and refinement. Full of juxtapositions, Miami's generous scale is visually lightened with its striated rope design, and distinctive angles are punctuated with surprising organic curves.

MONTEREY  
COGNAC

# MONTEREY

---

The Monterey's inspired design is a nod to the bay city in California, known as the home to many famous painters and authors in the late 19th and early 20th century. Its grand, dramatic beauty is an innovative blend of old world and new, its frame finished in a striking black subtly edged with copper detail. The Monterey's thoughtful engineering, combined with generous seating space, create a handsome design with ultimate comfort.

*Sunset West's furniture and appearance will be enjoyed for years to come with proper care and maintenance. Please review the following instructions thoroughly, as failure to maintain your furniture may void its warranty.*

### **METAL**

Sunset West offers metal frames in both powder coated aluminum and wrought iron. To clean, wash with a mild soap and warm water solution using a soft cloth. Do not use a coarse brush or harsh cleansers, as they may damage the finish. Always rinse and dry thoroughly after cleaning.

We recommend covering your outdoor furniture with outdoor covers (sold separately) when left outside during inclement weather, and when not in use. Ensure frames and cushions are dry when covered, store cushions separately. Especially in freezing environments, outdoor furniture should be free from water and covered in the winter, or stored in a shed or garage. While drain holes are preventative, water can still gather in the frames, freeze, and cause the finish to crack and the frame to burst.

Coastal areas are very harsh on all metals - salt must be cleaned from frames on a regular basis or the finish may oxidize, discolor and/or blister. Finally, to maintain or restore the luster of your powder-coated finish, after-market products are available to refresh UV repellency and water repellency – apply as needed.

### **WOVEN RESIN**

Resin weaves are virtually maintenance free, however; it is recommended to clean the frames on an occasional basis to prevent the build-up of dirt. In extreme climates where temperatures can reach above 100°, place furniture in 50% shaded areas. Cover your outdoor furniture with outdoor covers (sold separately) when left outside during inclement weather, and/or store when not in use.

Finally, to maintain or restore the luster of your resin wicker, after-market products are available to refresh UV repellency and water repellency – apply as needed.

### **TEAK**

Sunset West uses true natural teak wood in their Teak collections, that is then finished for a grey weathered look. To clean, wash with a mild soap and warm water solution using a soft cloth. DO NOT use harsh cleaners or abrasives as they will damage the finish. Our multi-step finish is applied to the rustic planks and then sealed with Golden Care® 'Teak-Shield'. We recommend continuing to apply 'Teak-Shield' (sold separately) to aid the longevity of the finish. Touch-up kits are available through Sunset West to maintain your Coastal Teak finish as needed.

When left exposed to the elements, the water-based finish will eventually wear away and uncover the natural teak underneath. The teak will then start its own natural weathering process, and slowly acquire the silver-gray patina that is the characteristic of untreated teak when exposed outdoors.

Please note that during the weathering process, the appearance of the furniture may be uneven, but will eventually develop a beautiful, uniform, silvery-gray patina. Cover your outdoor teak furniture with outdoor covers (sold separately) when left outside during inclement weather, and/or store when not in use.

## CARE & MAINTENANCE

### **ROPE**

Sunset West crafts their rope furniture out of olefin rope, which is all-weather, colorfast, and stain resistant. Blot spills gently, and clean stains with mild soap and water and a soft cloth or very soft bristle brush. Do not use a coarse brush, or any abrasives when cleaning, as this may damage the rope and cause fraying. Cover your outdoor furniture with outdoor covers (sold separately) when left outside during inclement weather, and/or store when not in use.

### **NATURAL STONE**

Sunset West offers occasional and fire tables in natural stone. Clean Granite or Carrara stone tops with a designated stone cleaner and soft cloth. Do not use harsh cleansers or abrasives. Blot spills with a paper towel or soft cloth immediately, then flush with water and very mild soap if necessary. Dry completely.

For stubborn oil-based spills, use a nitrocellulose lacquer thinner (available at most home improvement stores) to dissolve and treat the stain. Do not use any acids or abrasives. We strongly advise sealing your stone furniture tops with a low sheen, impregnating stone sealer to protect your stone and maintain its beauty outdoors.

For Gravelstone pieces, wash with a mild soap and warm water solution using a soft cloth as needed. Through normal use, heat may cause the stone to expand and contract, and micro fissures may appear. These are easily filled with a touch up kit available through Sunset West.

Cover your outdoor stone furniture with outdoor covers (sold separately) when left outside during inclement weather, and/or store when not in use.

### **CUSHIONS**

Sunset West uses premium Sunbrella® (solution dyed acrylic fabric). It is recommended to clean the fabrics on a regular basis to prevent the build-up of dirt and the chance of mildew to form. Wipe light spills with a clean, dry cloth. With regards to stubborn stains or spills, please visit [www.sunbrella.com](http://www.sunbrella.com) for specific care and cleaning details.

Cover your outdoor cushions with outdoor covers (sold separately) when left outside during inclement weather, and when not in use. Allow cushions to drain if wet. If soaked through, stand cushion on its side to allow faster draining. Ensure cushions are dry when covered, store cushions separately.

Clean sling fabric using a mild soap and warm water solution and soft cloth.

### **MOVING PARTS**

For pieces with moving parts, ie wheels, swivels, or dining table leaves, periodically check and tighten all nuts and bolts as necessary to secure. This will ensure that all products continue to operate as they should.

## LIMITED WARRANTY

*The following warranty information is for the product branded Sunset West only.*

Sunset West products have been designed to provide aesthetically pleasing looks, comfort and durability in an outdoor environment. Only the highest quality materials are used in Sunset West products. If a product is received or becomes defective, a Warranty Request form needs to be completed by the selling party. This form is available upon request from Sunset West. Products that are defective will be repaired or replaced at our discretion during the warranty period at no charge. This is a limited warranty.

Sunset West recommends following the Care & Maintenance guidelines provided. This warranty does not cover abusive and unreasonable use or normal wear and tear including fading and discoloration caused by chemical contact. Sunset West does not warranty any product against acts of God, including, but not limited to fire, ice, wind damage and earthquakes.

Living near the ocean can cause premature weathering of the aluminum finish and is not warranted. For optimal performance while living in the salt air, we suggest that the frames are covered while not in use and rinsed off monthly with fresh water and waxed at the beginning and end of each season. Non-propriety items such as glass or other tabletop surfaces are not covered under Warranty.

Mold and mildew issues on cushions are considered a user maintenance issue and are not covered under warranty. Please visit [www.sunbrella.com](http://www.sunbrella.com) for details on Sunbrella fabrics or visit the website of the fabric manufacturer if not Sunbrella.

With the previous exceptions;

All frames are warranted for a period of ten (10) years against manufacturing defects when used in a residential setting and two (2) years for commercial settings.

Powder Coated finishes are warranted for a period of three (3) years against peeling and blistering when used in a residential setting. Please note, hand applied and dry brushed finishing can fade over time. Also, nicks, dings and scratches are considered normal wear and tear. Powder coated finishes are warranted for two (2) years for commercial settings.

Resin Wicker and Rope is warranted for a period of three (3) years against noticeable fading, discoloration and deterioration. These items are warranted for two (2) years for commercial settings.

Sunbrella fabric is warranted for a period of five (5) years through Sunbrella. Visit [www.sunbrella.com](http://www.sunbrella.com) for details.

Cushion fill is warranty for two (2) years against manufacturer and material defects for residential settings and two (2) years for commercial settings when commercial foam is specified.

Teak wood products are warranted for one (1) year against manufacturer and material defects for residential settings and ninety (90) days in a commercial setting. NOTE: that the Teak used is naturally distressed and will have variations in tone, finish and grain, which are not covered by the warranty. The Teak used inherently has blemishes, checking, cracking, distressing and these are not warranted but are part of the natural appeal of the product.

Fire Tables are UL Listed for liquid propane (LP) and natural gas (NG). Crystal Fire burners offer a limited lifetime warranty; visit [www.crystalfire.com](http://www.crystalfire.com) for details. All other materials included with the fire tables are warranted against manufacturer and material defects for one (1) year in a residential setting and ninety (90) days in a commercial setting.

## MATERIALS

### TEAK

Our Driftwood Teak Tables are made from 100% solid teak wood, which may contain grooves, knots, splices, cracks and other rustic features. These attributes are intentional and give each piece its own unique character.

### KILN DRIED WOOD

The wood is kiln dried to improve the stability of timber. (10%-12% moisture content).

### SOLID WOOD CAN MOVE

Even though the teak has been kiln dried, it is solid wood. In an ever changing hot/cold environment with changes in humidity, expect slight splitting, checking, and possible lifting.

### FINISH

Our multi-step water based commercial grade finish is applied to the rustic planks and then sealed with Golden Care Teak-Shield. We recommend the end-user to continue applying 'Teak-Shield' to aid the longevity of the finish and prevent staining. To prolong the life of the applied finish even further, we recommend using furniture covers or placing the furniture in a covered area. When exposed to the elements, the water-based finish will eventually wear away and uncover the unfinished teak underneath, which will then start its own 'natural weathering process' and slowly acquire the silver-gray patina that is the characteristic of untreated teak when exposed to the outdoors. Please note during weathering process, the appearance of the furniture may be uneven but will eventually develop uniform silvery-gray patina.

### CLEANING

For light cleaning, wipe down using warm water and a soft cloth. For moderate cleaning, add 1 teaspoon of liquid dish soap to 1 quart of warm water, and wipe down with a soft cloth. Rinse the table using a low hose pressure to remove any extra soap.

### STORAGE

We recommend storing in a dry, unheated garage or shed, or beneath breathable furniture covers.

### WROUGHT IRON

WROUGHT-IRON - LITERALLY MEANS 'WORKED IRON'

The quality difference between wrought iron furniture consists of the materials used to make the frames along with the processes used or not used to complete the finished product. Much of the wrought iron furniture found in stores does not go through the same 5 Step Finish Processes as Sunset West Wrought Iron Furniture does. Without completing this type of cycle, the furniture is often left unprepared to withstand the harsh conditions of Mother Nature resulting in premature finish and frame deterioration.

#### STEP 1: CHEMICAL WASH - FINISH PREPARATION

All furniture to be coated is thoroughly cleaned with chemicals and checked to be mechanically sound and dry. A clean bright finish is obtained ensuring that all corrosive products are removed from the surface.

#### STEP 2: ELECTROPHORETIC DEPOSITION (E.D. COATING) - PROTECTIVE COATING

The positive electrically charged furniture frames are immersed in a tank containing a special negatively charged solution. The resulting electrochemical reaction provides a perfect molecularly sealed surface. The advantage is a full even coverage allowing all openings and crevices to be coated.

#### STEP 3: POWDER COATING – ADDED PROTECTIVE COATING

Powder coating, as with E.D. Coating is based on the principle that objects with opposite electric charges (positive and negative) attract one another. Powder particles are negatively charged by passing them through a special spraying gun. This results in an electric field between the spray gun and the positively charged furniture frames.

The powder particles

then adhere to the frames resulting in a superior final finish that has excellent resistance to all corroding elements.

#### STEP 4: BAKING – HARDENING OF THE POWDER COAT

The furniture is then transported to an oven where the powder is baked at temperatures of 300 to 400 degrees Fahrenheit for approximately 20 minutes resulting in a high quality, long lasting durable finish. As a bonus, the furniture will remain approximately 20% cooler after long sun exposure than conventional paint finishes.

#### STEP 5: HAND APPLIED – PEWTER DRY BRUSH

Brings out the details of the frame.

# MATERIALS

## ALL WEATHER WICKER

**WICKER - THE TERM WICKER ACTUALLY REFERS TO THE TECHNIQUE OF MAKING FURNITURE USING A WEAVING STYLE, NOT THE MATERIAL FROM WHICH IT IS MADE.**

All Weather Wicker furniture has a distinctive style that captures the eye and gives the overall space an inviting feel. There are a variety of reasons why choosing wicker is a smart and cost effective furniture solution to both your indoor and outdoor spaces. Since decks, patios and porches are becoming more family friendly with amenities such as outdoor kitchens and fire pits, investing in comfortable weather-resistant furniture goes hand in hand.

### 1: POLYETHYLENE HIGH-DENSITY RESIN WEAVE

- Superior all-weather wicker material is made from High-Density polyethylene (HDPE)
- HDPE All Weather Wicker is lighter, stronger and harder than simple polyethylene wicker or PVC.
- Able to withstand temperatures up to 230 degrees Fahrenheit.
- Can be melted and molded repeatedly making it an Earth Friendly Recyclable.
- The HDPE fibers can be colored or dyed to closely resemble or mimic the look of rattan or other woody fibers giving it a natural look. All quality pieces are then tightly woven, with no gaps.

### 2: WELDED POWDER COATED ALUMINUM FRAMES

Our "All Aluminum" frames are welded and then powder coated to resist corrosion. Leg bottoms have caps or adjustable glides to not only protect the furniture but also your surfaces.

### 3: LOW MAINTENANCE

Despite the durability characteristics of all-weather wicker furniture, it is not immune to dust and dirt. To keep your furniture looking fresh simply hose off to remove the dirt and grime. If this approach proves ineffective, a brush or a cloth and a bucket of water with diluted dish detergent is sufficient for a good cleaning.

## ALUMINUM

ALUMINUM IS THE MOST ABUNDANT ELEMENT IN THE EARTH'S CRUST.

It offers a low density and enhanced ability to decrease corrosion, making it lightweight and durable when compared to other metals. A 7 pound chair can conceivably support a 300 pound man. Aluminum will never rust.

### 1: FULLY WELDED EXTRUDED ALUMINUM

Extruded aluminum is forced thru a steel die to create lengths of material which can be bent and welded into finished furniture. The result is a "hollow" material (flat or tubular) with reinforcement channels inside for strength. We use extruded aluminum with much thicker outer walls and inner channels that can last a lifetime. Fully welded aluminum is much sturdier than assembled furniture as there are no weak points where the frames are put together.

### 2: POWDER COATED FINISH

This dry finishing process involves spraying an electrostatically charged coating onto the furniture and then heat-curing the frames in an oven. Made of ground pigment and resin, powder coating adheres to metal better than liquid paint. Used on many metal products, including cars, the powder coated finish is strong, long-lasting and scratch-resistant resulting in outdoor furniture that can weather the dog days of summer — and beyond.

### 3: MODERN HIGH END CUSHIONS

Nothing matches the comfort of good cushion furniture. Sunset West uses only the highest grade foam along with solution dyed acrylic Sunbrella fabrics. These fabrics, also used in boating and commercial applications, are water resistant, stain resistant, and easy to clean.

### 4: LOW MAINTENANCE

Aluminum furniture is made to be outside and take the abuse from the harsh elements that are in the atmosphere. Routine care will maximize the longevity and durability. Wash or spray with clear water or mild soap and water to remove dust, chemicals, pollen, salt, dirt, etc. In a climate with freezing conditions the furniture should be stored in a sheltered area that won't allow water to collect in the frames, freeze and cause the frame to crack or burst.
